GOBO EXTRACTOR PEN

This pen is supplied with 3 suction heads.

-  • Large size for up to 40g
-  • Medium size for up to 18g
-  • Small size for up to 3g

Directions :

1 • Fit the required suction head and push down the suction button on top of the pen to expel the air inside the pen.

2 • While keeping your finger pressed down on the suction button. Place the suction head onto the flat surface of the gobo.

3 • Release your finger from the suction button. This will cause a small vacuum between the pen and the surface of the gobo. This will allow you to remove or pick up the gobo safely and without damage.

4 • Press the suction button again to release the vacuum between the pen and the surface of the gobo.
